In other cases, after clicking “Apply Now,” citizens are brought to webpages that no longer exist.

# HOUSE BILL 1124

We offer the following recommendations for inclusion in House Bill 1124:

- ✓ Require that DoIT submit an inventory of existing systems serving Boards effectively that should be integrated with the OneStop for committee review (**Priority #1**)
- ✓ Require that DoIT justify its proposed investments in OneStop by providing comparisons to similar initiatives in other states (**Priority #2**)
- ✓ Require the Department to explain why it is continuing to move ahead on this project using an evaluation conducted by a consultant company that has declared bankruptcy (**Priority #3**)
- ✓ Require DoIT to provide an explanation how the LRMS project (under OneStop) requires \$10 million in state funds to be fully completed (**Priority #4**)
- ✓ Require DoIT to submit a report regarding the vendor contractual arrangement (with Enovational and Ernst & Young) and ownership of IP related to OneStop (**Priority #5**)
- ✓ Require DoIT to justify the State's \$4 million (in FY24) allocation to begin the second phase of this project (**Priority #6**)
- ✓ Require DoIT to outline all costs and terms for any third-party software licenses used to support OneStop and related projects (e.g., MDH project, MMCC project, etc.) (**Priority #7**)
