

HB 1101

Dr. Frank Arlinghaus

Favorable

Please issue a favorable opinion on House Bill 1101.

I write to ask you to help support those who provide assistance to those mothers who find themselves facing difficult circumstances while pregnant. These groups provide some assistance to help mothers have more options when facing a pregnancy, and by doing so, provide them access to more choices.

My wife and I are among the thousands who help privately fund this mission to give women greater access to resources to continue their pregnancy and to raise their child. This bill would provide a relatively small amount of support for that option.

At a time when Maryland is becoming a destination for abortion, this bill would provide greater support for the women of Maryland to choose other alternatives.
