

HB699 FWA

To whom it may concern:

I fully support HB699 with amendments. I was required to get vaccinated to keep my job, but thankfully my employer accepted my request for a religious exemption, so I suppose I was one of the lucky ones. That said, I was forced to wear a mask and test twice per week for over a year while my vaccinated colleagues did not have to do anything. It was an extremely stressful and degrading situation to suddenly be treated as a second class citizen simply because I wasn't vaccinated. As many of us have known all along, and everyone knows by now, the Covid vaccines did NOTHING to stop the spread of Covid as originally promised – therefore, there was never a reason to mandate them. Mandates do not belong in our state!
