

HB0049 - Economic Justice and Racial Reconciliation Act

Opposed

Alexandra Rak

I am opposed to the use of tax-payer dollars for this commission. Maryland is home to some of the wealthiest Black Americans in the country – so much so that there are now *two* African-American-Majority counties in the state which have claimed “Most Affluent” Status in the past decade. Legislation like this is meant only to divide our citizenry along race lines and sow discord instead of celebrating the accomplishments of communities of color within our state boundaries.

Please return an unfavorable report on HB0049.

Sincerely,

Alexandra Rak

Charles County Resident (THE most affluent majority Black county in the entire country)
