RE: Please oppose HB1232

Hello, please oppose HB1232. How on earth is a pharmacy technician qualified to know the contraindications of administering vaccines to my child without knowing their health history. Pediatricians are trained to properly assess risk factors and pharmacists are not. It is absolutely unbelievable that government officials feel they should be making laws like this that they hold no one liable when something goes wrong, and EVERYTHING falls on the parent. The pharmaceutical company isn't held liable due to the 1986 National Childhood Vaccine Injury Act, the doctors, pharmacist, government will all have immunity when something goes wrong and a child is seriously harmed and/or dies. I am a Maryland citizen and will be watching this bill closely and voting accordingly in the next

Regards, Karen
