FAVORABLE HB1224
March 10, 2023

My name is Jill Kapper and I thank you for allowing me to testify today to support HB1224. I support HB1224 because it provides parents with the power to be informed regarding their own children. Over the last few years especially I've noticed more parental rights being stripped away as if they've been for sale so it's a blessing when I see something to the contrary.

Nobody knows more about a child than their parents and because of this reason alone I'm urging you to support HB1224. Thank you for listening.
