

HB0699 Delegate Morgan, M.State and Local Government - Proof of Vaccination for Employees and Applicants for Employment - Prohibition (Vaccination by Choice Act)

I AM IN complete support of Bill HB0699.

NO ONE SHOULD BE FORCED TO TAKE A VACCINATION (especially one from Operation Warp Speed), NO ONE SHOULD BE FORCED TO PROVE THEY DID OR DIDN'T take it. So many love to use the word "Nazi" but isn't proof of Vaxx cards something they (the Stasi's) would do?

I am most thankful for Delegate Morgan for being brave and understanding the risks we were all subjected to the last 3 years, the suffering, the loss of income, broken families, unmitigated judgements, the labeling and name calling, for no good reason. No one should be forced into injecting oneself with a myriad of poisonous substances; to name one of the more heinous or offensive ones- male aborted fetal cells/enzymes.

IT'S A PERSONAL CHOICE and in the past it always has been, but "Covid" changed it all, so many lost their minds and good sense over it. Never let fear rule us again delegates.

Gratitude and thanks to each one of these men and women for protecting the citizens of Maryland. Each should receive a Medal of Honor, they clearly hear us and have heard our pleas. Delegates [M.
