**Testimony in Support of HB 53**

Human Services – Maryland Statewide Independent Living Council

Testimony of Delegate Cathi Forbes

Health and Government Relations

February 14, 2023

***What this bill does***

This bill will enable the [Maryland Statewide Independent Living Council](#) to form as a non-profit and have autonomy over the Federal monies that fund them.

***History on the issue***

Federal legislation, adopted in 1992 requires each state to maintain a Statewide Independent Living Council (SILC).

The Maryland SILC was created by Executive Order on September 24, 1993.

The Maryland SILC is committed to enhancing freedom and independent decision making of individuals with disabilities.

Currently the Division of Rehabilitative Services (DORS), a division of MSDE, is the Designated State Entity (DSE) that receives and disburses the Federal funding received to the SILC and Centers for Independent Living (CILs). Because the Maryland SILC is not a free-standing entity, it cannot receive and expend funds or hire its own employees. It must use DORS to expend funds and to hire personnel to accomplish its work.

***Why this bill matters***

The vision for Maryland SILC is for people with disabilities to have information, choices and control over the services and supports in their lives so they can participate fully in all aspects of society. This bill allows the people doing the work in our SILC and CILs more autonomy over the funding. This change will also enable them to apply for grants that may increase funding and allow them to do more work.

The restructuring of the organization will allow them to be more effective and contribute meaningfully to the goals of advancing independence and inclusion, by allowing them to have control of their finances.

Each state is required by Federal law to have a SILC, nearly half of the SILCs across the country have changed their structure and now operate as independent non-profits.

***Why you should vote for this bill***

This bill has been requested by advocates working in the Maryland Statewide Independent Living Council. The majority of the members of the Maryland SILC are people living with disabilities. Other SILCs across the country have made this change for the better of their programs.

I ask for a favorable report. Thank you.
