

HB1232
UNFAV
Shawna Sherrell
District 5

Dear House Health and Government Operations Committee:

I'm writing as a Maryland resident and as a parent to ask that the Committee gives this proposed bill an Unfavorable vote: HB1232: Health Occupations - Pharmacists - Administration of Vaccines.

I find it concerning that the bill does not specify parent or legal guardian in the language. The language of "Adult Caregiver" is too vague for a bill of this nature. In addition, cutting the doctor out of the equation for children ages 3-11 is not in the best health interest of any child, especially given the complexity of the childhood vaccination schedule.

Sincerely,

Shawna Sherrell
District 5
