

Testimony in opposition of House bill HB0871 - William Zwart.

To the Honorable Chair and members of the Committee,

The prosperity, freedom, and power of the Western World was built and is sustained on a foundation of Judeo-Christianity. If we throw away that foundation of God, it will all come crumbling down.

The choice is yours, but know that if you reject God, you also reject the blessings that come from Him. There is no lasting prosperity and liberty outside of Him, and the Founding Fathers designed our government to only function in a world of biblical morality.

If we remove God from government, government will become godless, just like the Nazi regime...and godless governments always collapse, with their destruction complete and permanent. Every. Single. Time.

Let us not reject the source from that which comes all our wealth, freedom, and worldly positions. This country was built by men who feared God. It will be destroyed by people who don't.

I therefore urge you not to support the continued erosion of America, for as government officials, you are only harming yourselves.

Vote against this bill.

Thank you.
