

HB0699 FWA

Please vote FAVORABLE ON HB0699 with PROPOSED AMENDMENT & Support Vaccination by Choice Act.

We should never allow forced pharmaceutical products on anyone. All pharmaceutical products have side effects so there should always be choice.

I have a co-worker that developed myocarditis from 2 Covid shots and was out of work for 3 months and my cousins 13-year-old son developed myocarditis after his 3<sup>rd</sup> Covid shot and had to be hospitalized for 7 days.

Thank you!
