

Bill HJ002 Oppose

I respect Delegate Mark Fisher on this Constitution (COS) issue, I even agree somewhat. There are people in DC that are trying to turn our beautiful nation into a communist/socialist country. Our Constitution is being trashed and surely not followed. I have spent a lot of time learning about it. Once I was in favor of the COS, until I learned the Constitution and what the government is NOT doing. The Constitution is being ignored and I don't feel this is the answer. I feel We the People should hold those accountable that do not follow it. All of them. If we lose this, we have lost our country. Is it perfect, no, but it holds together the only country like it. Please I ask you, not to change what we have, educate on what we have. Follow the Constitution and hold all accountable. All of these people we elect take an oath to uphold the Constitution, but they don't really know it. Bring the Constitution to the education requirements in our schools. I have spoken to a few Constitutional scholars, they fear for our country and our Constitution. Let's not move too quickly. There is a lot that can be discussed on this matter. I feel at this time I cannot support this bill.
Thank you for your time
