

HJ0002

Delegate Fisher~United States Constitution – Amendments Convention – Limitations on Federal Power

We love the idea of “Limitations of Federal Power” but ... ..

If we take into consideration that WE can NOT enforce laws and Our original Constitution of the United States, why would anyone think we could enforce it with some amendments? Don't you see Our Constitution is already under threat by foreign and domestic powers that be?

For this reason I adamantly oppose HJ 0002. Please just uphold our current laws.
