

Brent Amsbaugh

SB463 Written testimony

Bruen found that the “good and substantial” clause was unconstitutional. I had applied for my carry permit prior to the Bruen decision and was denied. I want my money back. The Maryland general assembly appears to be playing dirty politics. I am well aware that if I had a business and could show cash flow, then I would have been able to get my permit. It is frustrating because that tells me the state cares more about money than about our safety. You do not have the right to keep my money when you have the desk stacked against me. Do the right thing and pass this bill.
