

Testimony in opposition of HB0135

Mr. Chairman and members of the committee,

My name is Will Zwart, and I am testifying in opposition of this bill.

This bill is split into two subjects, neither of which have anything to do with the other.

Because the public is naturally resistant to the numerous schemes to infringe on our right to self-defense, these schemes must be done through devious and underhanded means, such as slipping them into otherwise beneficial bills.

Don't think we don't know that this is being done.

Restrictions on self-defense rights is unconstitutional i.e. illegal, and according to the Marbury v. Madison case of 1803, "Any law that is in violation of the Constitution is null and void."

The provisions of this bill regarding illegal gun control are going to get more Marylanders killed.

Please stop causing the deaths of your constitutions and vote against this bill and any other bills restricted our ability to defend ourselves.

Thank you.
