

I am opposed to SB0001 This is an attempt to infringe on a constitutional right. This will be found unconstitutional in the courts. I should have a right to defend myself and my family wherever I can freely travel and this infringes on where I can travel. On it's face it is a violation of the constitution, but why is this even being proposed? Was there a sudden surge of crime from law abiding citizens? THis law will only make the law abiding more vulnerable to the criminals. Vote Unfavorable
