

I oppose SB-113, as it exist.

SB-113 is nothing short of a deflection of the blame for the current high crime rate.

Firearms manufactures and sellers are not responsible for repeat violent felons and their wave of gun violence.

I would support SB-113 if it was amended to include the ability to sue legislators whom refuse to support keeping those who use guns in crimes in jail where they belong.

I would also support SB-113 if it included the ability to sue prosecutors who refuse to aggressively pursue felons who use guns in their crimes .

I would support SB-113 if it included the ability to hold judges who do not impose the maximum sentence on repeat violent offenders whom use guns in their crimes.

As it exist, I oppose SB-113
