

I am not in favor of restricting law-abiding citizens from carrying or transporting firearms. This state has consistently allowed true criminals to carry weapons that have murdered law abiding citizens on the city streets of Baltimore and all around the state. The sanctuary state of Maryland has allowed criminals that come across our borders to seek refuge in our state and these criminals have stayed true to their nature of murdering innocent individuals. Case and point the young woman from Aberdeen, Maryland (the city that I live in) that was raped and murdered, cut down before her time by an MS-13 gang member. It is my right as an American citizen to be able to defend myself, my family, and my property.
