House Bill 364
Position: SUPPORT

I stand in support of HB 364. Maryland should join the other 25 states that now recognize constitutional carry, especially in light of the Supreme Court decision in the Bruen case on June 23, 2022. The Supreme Court declared a persons right to carry a firearm in self defense did not end at their doorstep. This right should not be infringed upon by a permitting process. Maryland already utilizes a license that requires finger printing, criminal and mental health background checks, through the Handgun Qualification License. The over licensing of citizens cost the Maryland Sate Police a great deal of time and money, and unnecessarily burdens the citizens.

Please Pass House Bill 364.

Thanks,

Charles Knaggs
