

Dear Members of the House Ways  
and Means Committee,

This testimony is being submitted by Showing  
Up for Racial Justice Baltimore, a group of  
individuals working to move white folks as  
part of a multi-racial movement for equity and  
racial justice in Baltimore City, Baltimore  
County, and Howard County. We are also

working in collaboration with the Campaign for Justice, Safety and Jobs, and ACLU of  
Maryland. I am a resident of District 12A. **I am testifying in support of the Voting  
Rights Act of 2023, HB 1104.**

Maryland has made progress in recent years to improve voting rights access. Yet Maryland has a history of discrimination against Black and Brown voters. As recently as 2021, the ACLU and Baltimore County NAACP brought suit to challenge Voting Rights Act violations in proposed redistricting plans. Furthermore, the Supreme Court has recently weakened enforcement of the national Voting Rights Act. We need a Maryland-specific Voting Rights Act to improve protections for historically marginalized voters and to act as safeguard against weakened national enforcement.

This proposed bill would establish requirements for local governments when they plan redistricting or change election methods. It would also establish a statewide database of demographic and election information; this database would promote transparency and evidence-based practices. Furthermore, it would require pre-clearance from the Maryland Attorney General's office to confirm or deny local government remedies addressing past violations.

A few other states, like New York and Virginia, have enacted their own state Voting Rights Acts. In passing a Maryland version, our state would be joining good company. Maryland voters deserve the strongest possible protection of their voting rights.

It is for these reasons that I am encouraging you to vote **in support of the Voting Rights Act of 2023, HB 1104.**

Thank you for your time, service, and consideration.

Sincerely,

**Erica Palmisano**
