Willie Coleman, Jr.

I am a disabled American Veteran and I deserve the right to be able to defend myself from the current crime wave and shooting running through our cities and towns. The News is full of reports of armed attacks and carjackings on American citizens, In my area a man did not give his keys fast enough and was shot in the face and died. The proposed changes to the Maryland Conceal Carry Laws will impact my being able to defend myself and my family as I perform required tasks like shopping and taking my grandkids to movies. It is not the licensed Conceal Carry community that is breaking the law, otherwise you would have statics to prove it. The ability to print guns in homes has created an armed force of evil doers. The Police are short staffed and some are offering rewards to recruit new members. I have defended my county in the jungles of Vietnam, and you are working on leaving me defenseless and at the mercy of the criminals running the streets. This measure is not why I voted for you.
