

HB162-UNFAVORABLE-Firearms - Maryland Voluntary Do Not Sell Firearm Registry - Establishment

FRIENDLY REMINDER - The 2nd amendment of the Constitution is clear -

The right of the people to keep and bear Arms, shall not be infringed.

There is no exception to the amendments.

There is no statement that our firearms or people who do not want or do want firearms should be registered, whether it be voluntarily.

It is near certainty that once voluntary, the list will become mandatory and used against THE PEOPLE!

This is another example of the states incremental creep into our rights.

No Lists of people, no lists of firearms! No Lists!!

I am adamantly opposed to this bill and request that the Judiciary Committee vote UNFAVORABLE on this bill and stop it.
