

## **HB0926-Election Law - Polling Places - Establishing Voter Identity**

### **Stance: Unfavorable**

**Testimony:** My name is Adiena Britt and I reside withing the 45<sup>th</sup> Legislative District. I am writing to submit testimony against House Bill 0926. It is just re-naming, re-wording and shape-shifting of another Bill being submitted for the same purpose: Voter Suppression. Just because you use different wording and make an “attempt” to place the onus of supplying picture identification on the voter, doesn’t mean this isn’t the same thing as a voter ID law. This is unconstitutional. This is yet another veiled attempt at supposed “election integrity” which only amounts to voter suppression and disenfranchisement. There have been NO documented instances of any kind of “voter fraud” in the State of MD to any degree that warrants an entire law to be passed. This is election “fraud” fear mongering and the Citizenry of MD are better than this nonsense. Let’s call this what it is, Voter Suppression and Disenfranchisement. Nice try though.
