Re: **Support of HB 678 - Sales and Use Tax - Electricity for Agricultural Purposes**

On behalf of our Farm Bureau member families in Maryland, I submit this written testimony in support of HB 678. This bill adds to the existing agricultural sales and use tax exemption electricity that is used for agricultural purposes, such as raising livestock and poultry, irrigation, or crop production and grain harvest.

Currently, only farms that all their electricity use is tied to the house meter is tax exempt. Electricity use from other farm meters is currently being taxed. This bill exempts these additional farm meters.

In addition to residential electricity not being taxed, manufacturing businesses are not taxed. This includes Perdue's processing plant. Agriculture has always been considered manufacturing, so exempting all farm electricity would be consistent with current law.

MDFB Policy: We support exempting electric use on farms from the sales and use tax.
