

Hi I am Emma Wynne. I go to the Maryland school for the Blind and at my school we start our school year in August. But some schools start in July and that means if you have your birthday in August, you won't get that next school year.

**Some kids get only 15
years of school and
others get 16. I think
we should make this a
law to be nice to
everyone and
everyone gets the
same time to be in
school 16 years and to
be fair to everyone.
Please pass this bill.**
