

HB0022 FAVORABLE Jolie McShane Baltimore County

Unattended drop boxes everywhere, what could possibly go wrong? Add in ballots with no verified signature and we have massive election fraud. This is what happened in 2020 with ballots appearing out of nowhere nationwide. An excellent documentary chronicling election FRAUD is called "2000 Mules". Although the FBI claimed the technology used to track the individuals dropping massive numbers of ballots in the boxes was unverifiable, it is the same technology that is used to solve crimes. Obviously someone did not want the real news to leak that out that the 2020 election was stolen.

Mandating signature verification on the absentee ballots is the smart way to run an election. Prohibiting a local board of elections from removing an absentee ballot from a return envelope or ballot/return envelope or counting the ballot unless the return envelope or ballot/return envelope is signed by the voter. Any other procedure opens our elections to massive fraud. Maryland Delegates must pass this law to ensure election integrity.
