Honorable Chairperson, and members of the House Ways and Means Committee

People On the Go of Maryland (People On the Go) the statewide self-advocacy organization, ran for and by those with intellectual and/or developmental disabilities (IDD) offers this written testimony and respectful opposition to House Bill 22 (HB 22). This bill which would require a local board of elections to verify an individual's signature before counting a mail-in ballot, and require a witness be present to verify the signature first. Signature verification as a requirement disproportionately affects individuals with disabilities many of whom do not have a functional signature or use accommodations such as name stamps to vote. This measure would serve to disenfranchise them. The additional requirement of needing to have a witness present to verify the signature interferes with the voter's right to privacy and the convenience of being able to vote by mail in the first place. If a voter does not have a witness available they will most likely be forced to vote in person, this presents other barriers, such as transportation to the polling place, having to have people with

disabilities and elderly individuals wait in long lines, etc. For all of these reasons People On the Go strongly advise an unfavorable report thank you for your consideration.

Should you have any questions. Please contact Mat Rice.

Thank you,

Mat Rice, Executive Director
