The Montgomery County Chamber of Commerce (MCCC), the voice of business in Metro Maryland, supports House Bill 741 -- *Corporate Income Tax - Rate Reduction (Economic Competitiveness Act of 2023)*.

House Bill 741 incrementally reduces Maryland's corporate income tax rate from the current 8.25% to 6.25% for tax year 2026.

Maryland's corporate income tax rate is relatively high compared to most states. Some surrounding and competitor states have lower rates, such as Virginia's 6.0% corporate tax rate and North Carolina's 2.5% rate. MCCC urges Maryland policymakers consider an incremental reduction of the corporate tax rate to better compete with states like Virginia and North Carolina.

In the final report of the *Maryland Economic Development and Business Climate Commission*, released in 2016, it was found that, "reducing Maryland's corporate income tax rate would make the State more competitive in attracting economic development and creating jobs." The report recommended that the State of Maryland reduce, over three years, the corporate income tax rate, stating that, "reducing the corporate income tax rate to 7.0% will make Maryland more competitive for businesses considering expanding or relocating in the State. It will allow businesses to lower the cost of capital, create jobs, and increase investment in the economy. This will be true for both smaller in-state businesses and larger multistate corporations." The report also concluded that reducing the corporate tax rate was affordable as it provides a relatively modest amount of State revenues compared to the individual income tax and sales tax.

If Maryland were to reduce its corporate, the message to the business community would be that our State is invested in supporting economic growth and job creation. Furthermore, the perception of Maryland as less-than-friendly business state diminish significantly.

**For these reasons, the Montgomery County Chamber of Commerce supports House Bill 741 and respectfully requests a favorable report.**
