

## House Bill 1168

Ultimately, performing well academically in high school has many benefits such as college admissions, developing good study habits, learning how to confront challenges, and becoming a hardworking person. Additionally, being named valedictorian or salutatorian is a valuable honor to have in high school, since it demonstrates that a student has the capacity to excel amongst their peers. Please vote yes to HB 1168 and restore class rank to Calvert County Public High Schools.
