

## Corrupt Family Law Judges

Maryland has employed a host of horrible judges in its recent history. Ardent, shallow feminists with no insights of long-term impacts of their rulings. Anti-White black female ideologues on the bench. District Court judges in Baltimore Region who don't get to cases because they might affect their golf- tee-off time. And even a homosexual pedophilic judge who videotaped boys, touched them, produced teen porn as was subject to arrest by the FBI. This judge on Maryland's Eastern Shore, appointed by Gov. Larry Hogan, killed himself. This bill will, if not this year, some incremental number of years in the future, allow such an LGBT pedophile to garner benefits from the state.

Corruption is rife in family law. Corrupt, pedophilic judges and their families should not receive extra benefits nor those who instigate and exasperate honest, fit, or questioning litigants/parents.

## Eastern Shore Judge Commits Suicide As FBI Prepares To Arrest Him

Organizations in Baltimore City, Howard County, PG County, neighboring West Virginia and elsewhere show that these are not isolated cases as it involves family law. HB0768 should not get a Committee Vote. Maryland has never moved to clean up the overlordship by its judges, especially as it regards family law matters, like this Custody Evaluator (which can have heavy sway over judges' determinations) involved in LGBT porn, found by Moms Fighting Howard County Court Corruption

Judge make over \$180,000 and were just given \$40,000 raises the during COVID scandemic. Are most now making over \$230,000 per year?

The recent incident, perhaps the one which prompted this bill, pointed to an alleged murder suspect who was given a flawed ruling regarding his family law case. Since Maryland judges are to provide determinations consistent with both our laws **and parents' traditions** one can easily see how Maryland's progressive judges often ignore how a family lived prior to court hearings. Do all judges pay attention to parents' cultural traditions? Are judges ignoring the manner in which a man, woman and child(ren) lived as a unit and then attempting to overlay a progressive Maryland culture overtop that family construct? That would be wrongful, an abuse of discretion and potentially unlawful.

However, to the matter of this bill, Maryland's lengthy contribution to unlawful, malignant, fatherhood-denigrating child custody determinations is not new and has a history, including Senator Jill Carter's feature film with Janks Morton.

Here are other videos (some of which gave the screencaps above) involving family law corruption in and out of Maryland.
