

Dear Members of the Committee,

Please support HB0365. The children of this county are as deserving as any in the state, or the country. Sadly, we value property taxes as the measure of how children's educations are funded. This is unconscionable.

Please recognize the tax base for the children in rural counties can never produce the same revenue as those in more prosperous counties.

I am a local business owner, Veteran (U.S. Navy), parent, and committed member of my community, state, and country.

I support HB 0365.

Thank you!
