

Dear Delegate,

I am Miranda Colegrove and I am writing to you today, as a supportive member at Chesapeake Public Charter School,, to ask you for your support of HB1061 [School Construction - Public Charter School Facility Fund - Establishment](#) sponsored by Delegate Young.

As a member of the House Appropriations Committee, this bill will be before you on March 5th. I am writing to share why this bill is essentially to pass. Maryland public charter schools are an integral part of the public school portfolio in Maryland, serving more than 24,000 students statewide. The communities with public charter schools, the teachers and staff that work there, the districts that include them, and the students that attend them would all benefit directly from the much-needed funding HB1061 would supply.

As an advocate for educational causes, I wish to emphasize the critical importance of Chesapeake Public Charter School. The nurturing environment it offers goes beyond traditional education, providing all children especially our vulnerable military children with a stable home to grow and thrive, and fostering a sense of community and belonging. Chesapeake Public Charter School. has been a constant and supportive force. The weekly community gatherings and personalized attention have been instrumental in her academic journey. The impact of this school is profound, contributing significantly to her personal development through the creation of an inclusive and diverse culture. As we consider legislative support for education, Chesapeake Public Charter School stands as a shining example of the positive outcomes that result from investing in our educational institutions.

LEAs are able to utilize capital funding and general funds from other sources, not available to public charter schools, to support their facilities, operations, & maintenance. HB1061 seeks to establish a fund managed by the IAC that allows public charter schools to apply for up to \$2000 per pupil annually for eligible facilities-related expenses. This funding does not impact the Blueprint formula or take funding away from any other public school students, as the funding would come from the State's General Fund. Instead, HB1061 will allow more Blueprint dollars to be spent IN the classroom on learning instead of ON the school's facility. It also sets strong parameters around spending accountability and transparency while ensuring there is standard bond bill language on repayment if a school should close or sell a privately owned building.

Charter school students are public school students and they deserve to be educated in safe, welcoming, adequate school buildings just like their traditional public school peers. Just because a family decides to send their children to a public charter school and stay in the public school system, why do they have to attend, on average, an older, more in need of repair, discarded building? Why do charter school teachers have to teach in buildings that do not have adequate space, amenities, or support? Why do charter school operators have to pull funding out of their Blueprint dollars to pay for their buildings, while traditional schools & LEAs pull from capital funding and general funds? Bottom line, it isn't equitable. Through your support, we can work to close inequities public charter school students, families, and teachers experience in their school buildings every day.

We have had more than 20 years of public charter schools in Maryland. It is about time we get to work funding their public school facilities. We look forward to the hearing on March 5th and your support of HB1061, School Construction - Public Charter School Facility Fund - Establishment. **Please know that it is not only myself, but the larger charter school community across the state of more than 24,000 families, 53 schools in eight districts standing behind you.**

Thank you,
Miranda Colegrove
