

## Testimony Against SB0913

Please vote against SB0913.

This bill is even worse than ranked voting. It does not explain how it would work and the sponsor wants it to be passed before any governing body would explain the process to the voters. If passed, then some governing group would want to implement it. This is similar to passing the bill to know what is in it, but in this case, the explanation is not there at all.

Please vote against SB0913.
