6 Bladen St., Annapolis, MD, 21401

RE: MBIA Letter of Support HB 3 Land Use – Expedited Development Review Processes for Affordable Housing – Requirements

Dear Chairman Korman,

The Maryland Building Industry Association, representing 100,000 employees statewide, appreciates the opportunity to participate in the discussion surrounding **HB 3 Land Use – Expedited Development Review Processes for Affordable Housing – Requirements**. MBIA **Supports** the Act in its current version.

This bill would require that a county expedites affordable housing review processes on property owned by nonprofit organizations. MBIA supports this measure. Maryland currently faces a housing shortage of approximately 96,000 housing units. If nothing changes, that number will increase by 5600 units per year. The National Association of Homebuilders reports that the estimated rent of a Maryland Housing Units is more than 30% of household incomes state wide with 25% of people spending more than 50% of their income on housing. In order to address this problem, we need a concerted effort to make housing available, and affordable to the residents of this state. This bill is an important first step in addressing this problem as it relieves some of the process burden for construction these desperately needed housing units. More than 50% of residents of the state of Maryland report that lack of housing availability is a major problem. According to the Maryland Department of Housing and Community Development, Maryland is the 8th least affordable state in the United States. In addition, regulations imposed by all levels of government account for 23.8% of the price of a house. MBIA supports any effort to create more housing units without the long and expensive regulator burden often imposed by individual jurisdictions.

For these reasons, MBIA respectfully requests the Committee give this measure a favorable report. Thank you for your consideration.
