INTRODUCTION

This report is submitted pursuant to House Bill 219 – St. Mary’s County – Golf Carts on Public Highways – Report, enacted into law as Chapter 609 of the Acts of 2023. HB 219/CH 609 charges the Commissioners of St. Mary’s County with submitting, on or before December 1, 2023, a report to the General Assembly “recommending and describing the areas of St. Mary’s County that the County Board considers appropriate for the operation of unregistered golf carts on public highways, subject to the standards established in this section.” This document, together with its appendices and exhibits, is offered as that report. Included below as forewords to the Commissioners’ recommendations, for added context, are summaries of HB 219/CH 609, the legislative history of HB 219, and previously enacted legislation of similar scope allowing the operation of golf carts on certain public highways in other communities of the State.

SUMMARY OF HOUSE BILL 219 / CHAPTER 609

House Bill 219/Chapter 609 (“HB 219”) requires the Commissioners to submit a report to designated committees of the General Assembly recommending and describing areas in the County the Commissioners believe are appropriate for the operation of unregistered golf carts on public highways. Per Paragraph (b) of HB 219, an “appropriate area” shall:

- (1) be an isolated area on an island or peninsula bordering the Chesapeake Bay or its tidal tributaries;
- (2) have available significant public docking facilities or private docking facilities available to the public that would facilitate visitors to the area arriving by boat;
- (3) be viable as a destination for the boating public as part of a network of tourist attractions throughout the Maryland portion of the Chesapeake Bay and its tidal tributaries;
- (4) have available for visitors shopping, sightseeing, dining, charter fishing, beaches, pools, or water parks, or other attractions; and,
- (5) preferably contain no State highways or highways with a speed limit that exceeds 30 miles per hour.

The report is due on or before December 1, 2023 and shall be delivered to the House Environment and Transportation Committee, the Senate Judicial Proceedings Committee, and the St. Mary’s County Delegation to the General Assembly. Per State Government Article § 2-1257, five copies of the report shall be submitted to the library of the Department of Legislative Services and one copy each shall be furnished to the President of the Senate and the Speaker of the House of Delegates. Distribution approval shall be attained from the chair of each committee before any distribution to individual committee members.

LEGISLATIVE HISTORY

As first filed HB 219 would have authorized the Commissioners to allow the operation of golf carts on any county-owned road in St. Mary's County, provided the posted speed limit of the road did not exceed thirty-five (35) miles per hour. Also included were conditions that golf carts could only be operable on authorized roads from dawn to dusk, that the golf cart be equipped with any lighting devices as may be required by the Motor Vehicle Administration ("MVA"), that operators shall keep the golf cart as far to the right of a road as possible, and that any operator of a golf cart must possess a valid driver's license. Bills with identical language were introduced in 2021 (HB 475) and 2022 (HB 863) but failed to advance.

HB 219, as passed, charges the Commissioners with making this report and contains no changes to existing law in and of itself. Compared to the authorization the original draft of HB 219 would have conferred on the Commissioners, the areas and communities identified in this report will comprise an aggregate area much smaller than the County as a whole. If the General Assembly introduces and passes enacting legislation as requested by this report the Commissioners of St. Mary's County would possess similar local authority as has already been granted to certain other counties, as detailed below.

COMPARABLE ENACTED LEGISLATION

Generally, any motor vehicle must be registered with the MVA before it can be driven on a highway. Through legislation the General Assembly has exempted this requirement¹ in the following communities:

- Smith Island, in Somerset County (Transportation Article § 13-402(c)(11); enacted 1992)
- Crisfield, in Somerset County (Transportation Article § 21-104.2; enacted 2016)
- Golden Beach Patuxent Knolls, in St. Mary's County (Transportation Article § 21-104.3; enacted 2017)
- Vienna, in Dorchester County (Transportation Article § 21-104.4; enacted 2018)
- Upper Hoopers Island, in Dorchester County (Transportation Article § 21-104.6; enacted 2022)
- Middle Hoopers Island, in Dorchester County (Transportation Article § 21-104.6; enacted 2022)
- Taylors Island, in Dorchester County (Transportation Article § 21-104.6; enacted 2022)

Common to the exemptions above are the following provisions: that golf carts may only be operated on a county highway on which the posted speed limit does not exceed 30 miles per hour,

¹¹ Exemptions elsewhere for the operation of unregistered all-terrain vehicles and snowmobiles in certain circumstances. Transportation § 25-102(a)(14). In Allegany County, an exemption exists allowing golf carts to traverse state roads for continued access to any portion of a golf course. Transportation § 25-102(a)(16).

that golf carts may only be operated between dawn and dusk, that any golf carts must be equipped with lighting devices as required by the MVA, that golf carts shall be kept as far to the right of the roadway as feasible, that any operators of a golf cart must possess a valid driver's license, and that the local governing body must designate by resolution specific county highways within each community that golf carts may be operated upon.

The communities targeted by existing legislation are diverse. Some, such as Crisfield and Golden Beach Patuxent Knolls, are comprised of relatively densely populated environs; others, such as Hoopers Islands, are sparsely populated. The magnitude of public and private amenities offered in each varies. On balance and as stated previously, the Commissioners feel the communities in St. Mary's County identified below are of similar nature and character as these other communities.

AREAS RECOMMENDED APPROPRIATE FOR OPERATION OF GOLF CARTS

All maps provided are taken directly from the County's publicly available Geographic Information System ("GIS") (accessible at <https://www.stmaryscountymd.gov/it/gis/>). A special layer has been imposed identifying county-owned roads in each community, with roads highlighted according to the following legend:

40 MPH Speed Limit

35 MPH Speed Limit

30 MPH Speed Limit

25 MPH Speed Limit

GOLDEN BEACH PATUXENT KNOLLS

Golden Beach Patuxent Knolls is a long-established residential subdivision first platted in 1955 and built out over the next two decades. A peninsula bounded by Indian Creek and Trent Hall Creek, both tributaries of the Patuxent River, it is a viable location for recreational boating. Most waterfront lots have private piers and community associations provide for community boat ramps, piers, and beaches. Golf carts were authorized in Golden Beach by Ch 710 of the Acts of 2017, which allowed the St. Mary's County Department of Public Works to designate county highways in Golden Beach Patuxent Knolls on which a person may operate a golf cart, as codified in Md. Transportation Article § 21-104.3. The Commissioners ask no changes be made to this law at this time.

PINEY POINT & TALL TIMBERS

Piney Point and neighboring Tall Timbers are unincorporated waterfront communities bounded by

water on all sides. The area borders the Potomac River to the west and south, St. George Creek to the east and northeast, and Herring Creek to the north. A gullet of land a third of a mile wide between Herring Creek and St. George's Creek connects the area to the rest of St. Mary's County, and a short bridge connects Piney Point to St. George's Island in the southeast. While Piney Point was once a major summer destination for visitors and dignitaries from Washington, today Piney Point – which includes the communities of Potomac Beach and Lighthouse Road, Piney Point Shores, St. George's Beach, the Landings, and other small subdivisions – comprises many single-family homes that enjoy year-round and seasonal use. Amenities available to residents and guests include the Piney Point public boat landing and pier, the county-owned Piney Point Lighthouse Museum and Park (including the Piney Point Light, constructed in 1836), the Tall Timbers Marina, and other local restaurants and recreational facilities. The area is dotted with numerous private piers and beaches. The majority of roads in the community are county-owned or privately maintained and do not have speed limits greater than 25 miles per hour, as shown on the map above.

COLTON'S POINT

Colton's Point lies directly across St. Clement's Bay from St. Clement's Island, site of the first colonial landing in Maryland on March 25, 1634. Today, Colton's Point is a residential community whose location on the Potomac River make it a prime destination for tourism and the boating public during season. Amenities include the St. Clement's Island Museum, a large public pier immediately adjacent the museum, the nearby state parks at St. Clement's Island and Newtowne Neck, the Blackistone Island Lighthouse on St. Clement's Island, and Potomac Gardens, a food service and entertainment establishment in mainland Colton's Point. A water taxi between St. Clement's Island Museum and the north pier on St. Clement's Island runs daily during the months between March and October; the only other means of accessing the island is by private boat. State Route 242 terminates at the intersection of Point Breeze Road and Windy Lane, and all other major public roads in the community are county-owned.

ST. CLEMENT'S SHORES

Four-and-a-half miles, as the crow flies, across St. Clement's Bay from Colton's Point lies the community known as St. Clement's Shores. The community contains a multitude of private piers, as well as a large pier owned by the St. Clement's Shores Civic Association. Nearby amenities include St. Clement's Shores Park, and the community is within easy boating distance of the amenities at Colton's Point, as well as Fitzie's Marina and Restaurant in Compton. All significant roads within St. Clement's Shores and its immediate environs are owned by the County and carry a maximum speed limit below 30 miles per hour.

HOLLYWOOD SHORES

Bordering the Patuxent River on the north and Cole Creek on the west, Hollywood Shores is located in the rough midpoint of St. Mary's County Patuxent River shoreline. The Patuxent River, which separates St. Mary's County from Calvert County, is a major recreational venue for boating. Hollywood Shores' local amenities include a pool and boat launch owned by the community's civic association and contains numerous private piers.

CLARKE'S LANDING

The area identified as Clarke's Landing in this report centers on the eponymous Clarke's Landing, a well-known seafood restaurant containing a public boat landing and floating dock. Paved parking is provided for land borne visitors. The greater area consists of single-family homes served by county-owned roads, most of which have maximum speed limits of 25 miles per hour. The area is bounded by Cuckold Creek and Nats Creek, both of which are tributaries of the Patuxent River. Other amenities in the greater area include Myrtle Point Park to the immediate southeast and the Winpisinger Education & Technology Center, a training center for the International Association of Machinists and Aerospace Workers ("IAM").

ST. GEORGE'S ISLAND

Immediately southeast of Piney Point and Tall Timbers, St. George's Island is located in the Potomac River. Its only static mainland connection is a bridge between the island and Piney Point. Primarily served by State Route 249, state ownership of the road terminates at the island's rough midpoint, and county roads service the remainder of the island. Nearly every waterfront parcel on the island has its own pier, and its immediate proximity to Piney Point gives boaters easy access to the same amenities.

MILL POINT SHORES

Mill Point Shores, which borders Choptico Bay and the Wicomico River, a tributary of the Potomac, formed in the early twentieth century. Originally created by and for the region's African-American population, it began as a private waterfront community comprised of summer cottages and was meant to provide recreational opportunities for that underserved population. The seasonal nature of the community declined over successive decades and Mill Point Shores is now dominated by all-year residences and many parcels in the community are owned by descendants of the original owners. Most every waterfront lot contains a private pier, and the local Mill Point Improvement Association provides a community clubhouse, beach, and boat ramp. All roads in the community are privately maintained by the residents; one additional salutary benefit of allowing golf carts on these roadways is the reduced strain on the wear and tear of these roads.

LONGVIEW BEACH

Longview Beach, bordering Mill Creek and the Wicomico River, lies less than three miles south of

Millpoint Shores and shares its same history and qualities. Originally intended to be a community of summer cottages, most of Longview Beach's residents are now year-round inhabitants. A community clubhouse, beach, and other amenities are provided by the Long View Beach Club Association. As in Mill Point shores, all roads are privately maintained and stand to gain the same benefit of reduced wear and tear if golf cart use is sanctioned.

RODO BEACH & SCOTLAND BEACH

Rodo Beach and Scotland Beach are small, isolated areas in the County's south; bounded by Tanner Creek on the south, Long Neck Creek on the north, and the Chesapeake Bay on the east, the community's immediate proximity to the confluence of the Potomac River and Chesapeake Bay make it a prime location for the general boating public. Immediately south of the community lies Point Lookout State Park, which includes the Point Lookout Lighthouse, public fishing pier, campground, boat launch, canoe, and other amenities included as part of the state park. Amenities directly within the community include Scotland Yard Beach Rentals.

Horselanding

Horselanding is a small residential community bounded by Spring Creek, Coatigan Run, and the Patuxent River. Rural and isolated, its predominant landmark is Drift Inn, the oldest crab house in St. Mary's County. First opened in 1946 it remains family-operated today and is a destination for both local residents and recreational boaters. A large pier provides access to the boating public and connections further inland are provided by Delabrooke Road, Riverview Road, Horse Landing Road, and Old Horse Landing Road.

CONCLUSION

The Commissioners of St. Mary's County believe the areas identified above satisfy the criteria for public highways appropriate for the operation of unregistered golf carts. Accordingly, the Commissioners respectfully ask the General Assembly to consider enacting legislation this year giving the Commissioners authority to designate, by local resolution, county-owned highways in each of the recommended areas on which it will be legal to operate golf carts. The Commissioners ask that the legislation have the same restrictions and conditions customary to similar legislation enacted in recent years: that only public highways with posted speed limits of thirty (30) miles per hour or less be eligible, and that golf carts may only be operated on those roads from dawn to dusk, as far to the right of a roadway as is feasible, and only by those possessing a valid driver's license.

We thank the General Assembly for the opportunity to present this report and for the legislature's consideration of this matter, which remains of great interest to our County.

St. Mary's County - Golf Carts on Public Highways - Report

This bill requires the St. Mary's County Board of County Commissioners to produce a report recommending and describing the areas of St. Mary's County that the board considers appropriate for the operation of unregistered golf carts on public highways, subject to specified standards. The report must include a detailed map of any areas the board considers appropriate for the operation of unregistered golf carts on public highways, including a delineation of all public highways contained within the area. By December 1, 2023, the board must submit the report to the House Environment and Transportation Committee, the Senate Judicial Proceedings Committee, and the St. Mary's County Delegation to the General Assembly. **The bill takes effect June 1, 2023.**

Fiscal Summary

State Effect: None.

Local Effect: The St. Mary's County Board of County Commissioners can produce and submit the required report with existing resources. Revenues are not affected.

Small Business Effect: None.

Analysis

Bill Summary: An area appropriate for the operation of golf carts on public highways must:

- be an isolated area on an island or a peninsula bordering the Chesapeake Bay or its tidal tributaries;
- have available significant public or private docking facilities available to the public that would facilitate visitors to the area arriving by boat;
- be viable as a destination for the boating public as part of a network of tourist attractions throughout the Maryland portion of the Chesapeake Bay and its tidal tributaries;
- have available for visitors shopping, sightseeing, dining, charter fishing, beaches, pools, or water parks, or other attractions; and
- preferably contain no State highways or highways with a speed limit that exceeds 30 miles per hour.

Current Law: Each motor vehicle, trailer, semitrailer, and pole trailer driven on a highway must be registered. Certain motor vehicles are exempt from this requirement, including:

- certain snowmobiles in Allegany and Garrett counties; and
- certain golf carts in Allegany County, on Smith Island, in the City of Crisfield in Somerset County, in the community of Golden Beach Patuxent Knolls in St. Mary's County, in the Town of Vienna in Dorchester County, and on Hoopers Island and Taylors Island.

A "motor vehicle" is defined as a vehicle that, unless otherwise specifically exempted, is self-propelled or propelled by electric power obtained from overhead electrical wires and not operated on rails. Certain vehicles, such as low-speed vehicles, bicycles, and motor scooters, are restricted to certain highways based on the maximum posted speed limit; they may be subject to different rules of the road than passenger cars and trucks.
