RE: Support for House Bill 0364 - Prince George's County - Traffic Control Device Monitoring Systems - Authorization PG 301-24

Dear Chair Korman and Committee Members:

The College Park City Council voted unanimously during the meeting of February 6, 2024 to support HB0364, which would authorize the use of traffic control device monitoring systems as a tool to encourage compliance with traffic signs and regulations.

We believe such devices and fines will increase the safety of our streets for all users, but particularly for pedestrians. College Park has invested in pedestrian safety and will continue to do so. HB 364 will assist our efforts and reduce dangerous driving practices. It is an efficient and effective tool to penalize violators and protect the public, while allowing other public safety staff to perform other important duties.

Thank you for your consideration of the City's position.

Sincerely,

Fazlul Kabir
Mayor
