

HB0367/SB0527 – UNFAVORABLE

Nelda Fink

MD District 32

I oppose this abhorrent bill.

The purpose of government is to protect the rights of the citizens, not to promote and ease the access to sinful and abhorrent acts of the citizens. This bill makes it too easy first to have young adults engage in acts that in my religion are sinful. One could argue that the State is promoting its own religion through providing and promoting those acts which my religion and many other religions consider sinful.

Second this bill will make teen rape much easier. You are no longer protecting the rights of the young women who could be in a situation where she cannot stand up for herself, and that fact that the male has a condom that he just purchased in from the school student center, just makes this silent crime too easy and now supported by the government itself.

Start doing your job, following your constitutional oath and write bills that protect people not bills that lead to sin and crimes. There is no protection in these.

100% OPPOSE this bill.

Thank you.
