

HB0228 **is another government overreach**, and a UN AGENDA21 tactic, meaning  
A push for socialist government, 15-min cities, Plan 2040. It's all totally UNAFFORDABLE.

Climate hustle and biodiversity or "natural resources" or planning part of UN Agenda21.

Say no to this dangerous and bad bill that will cost a fortune to create and will NEVER be  
Actually used as it is unsustainable, unaffordable and unreliable.
