

SB0431 I support this bill with amendments. Those amendments should be to include eligible employees who have been damaged, been harmed or injured by the covid vaccinations.

Thank you for this added amendment that could help so many in need and suffering.
Check VAERS for deaths and adverse side effects from C19 shots.

Of course you know by now that the CDC is stating to treat C19 like the flu. The CDC and Fauci have reversed any and all original recommendations. Fauci is now telling the world (live/video) that the shots are causing myocarditis, especially in young males and athletes.

Please include these people in this bill, thank you.
