

House Bill 969
House Judiciary Committee
Wednesday, February 28, 2024

Written Testimony: Claudia Barber, Esquire

I, Claudia Barber, Esquire am advocating for a favorable recommendation from the House Judiciary Committee on HB 969, I support this bill because it is significant for grieving families to have an opportunity to bring closure to an uncertain death certificate. It would further bring to the attention of future law enforcement a reason to reopen an already closed investigation.

Thank you for your time.
