

Opposition Statement HB1270
Health Benefit Plans – Prescription Drugs -
Rebates and Calculation of Cost Sharing Requirements
Deborah Brocato, Legislative Consultant
Maryland Right to Life

We oppose HB1270.

On behalf of our 200,000 followers across the state, we respectfully object to HB1270. Maryland Right to Life opposes the appropriations from this bill being used to fund the abortion industry and their dispensing of abortion drugs and other services. The Abortion Care Access Act of 2022 provides for funding of abortion through by the taxpayers through Medicaid and private health insurance. We oppose the additional funding of abortion that would be provided in this bill through direct rebates to abortion providers. Maryland Right to Life requests an amendment excluding abortion purposes from this bill.

D-I-Y Abortions: While the Supreme Court imposed legal abortion on the states in their 1973 decisions *Roe v. Wade* and *Doe v. Bolton*, the promise was that abortion would be safe, legal and rare. But in 2016 the Court's decision in *Whole Woman's Health v. Hellerstedt* prioritized "mere access" to abortion facilities and abortion industry profitability over women's health and safety.

The abortion industry itself has referred to the use of abortion pills as "Do-It-Yourself" abortions, claiming that the method is safe and easy. Chemical abortions are 4 (four) times more dangerous than surgical abortions, presenting a high risk of hemorrhaging, infection, and even death. With the widespread distribution of chemical abortion pills, the demand on Emergency Room personnel to deal with abortion complications has increased 250%. The FDA has removed safeguards that prohibited the remote sale of chemical abortion pills leaving pregnant women and girls exposed to the predatory tele-abortion practices of the abortion industry.

In addition to the physical harm of these D-I-Y abortions, consider the psychological harm of chemical abortion. After taking the mifepristone and misoprostol and the contractions begin, the woman or girl is told to expel the baby and placenta into the toilet. This is a very bloody event and the woman and girl will see the remains of their baby in the toilet. If hemorrhaging occurs, the woman or girl will need to get herself to an emergency room.

Maryland is one of only 4 states that forces taxpayer funding of abortion. Maryland taxpayers are forced to subsidize the abortion industry through direct Maryland Medicaid reimbursements to abortion providers, through various state grants and contracts, and through pass-through funding in various state programs. Health insurance carriers are required to provide reproductive health coverage to participate with the Maryland Health Choice program.

Americans oppose taxpayer funding of abortion. Taxpayers should not be forced to fund elective abortions, which make up the vast majority of abortions committed in Maryland. Polls consistently show that 60% of Americans, pro-life and pro-choice, oppose taxpayer funding of abortion.

HB1270
2024

Funding restrictions are constitutional. The Supreme Court of the United States has ruled that the government may distinguish between abortion and other procedures in funding decisions -- noting that *“no other procedure involves the purposeful termination of a potential life”*, and held that there is *“no limitation on the authority of a State to make a value judgment favoring childbirth over abortion, and to implement that judgment by the allocation of public funds.”*

Women and girls deserve better than the state sponsored D-I-Y abortions, and taxpayers deserve better than to pay for dangerous, life-threatening drugs. Maryland Right to Life requests an amendment excluding abortion purposes from this bill. Without it, we ask for an unfavorable report on HB1270.
