Owings Mills MD 21117
HB0722-FAVORABLE

Good afternoon,

My name is Jill Kapper and I'm a lifelong resident of Maryland. I'm here to support any Bill that aims to protect the future generation as HB722 seems to do. It's become increasingly important to support such bills being that there seems to be a target on our younger population. If this bill prohibits a health care provider from knowingly engaging in or causing certain medical or surgical procedures to change the sex or gender of a minor without the consent of the parent, guardian, or custodian of that minor than sign me up. I appreciate the dedication to create legislation of this matter and am sorry to see how necessary it's become. You are appreciated.

Thank You!
