

**Committee:** House Health and Government Operation Committee

**Bill:** House Bill 1233 - Public Health - Abortion

**Hearing Date:** March 15, 2024

**Position:** Oppose

---

The Women's Law Center of Maryland is dedicated to ensuring the physical safety, the economic security, and the bodily autonomy of women throughout the State. One way we work towards this goal is by supporting women in their reproductive decisions if, when, and how they decide to build their families. Part of this support includes working to ensure that reproductive health care is treated equitably and fairly as a medical issue and not a political issue.

HB 1233 is modeled after Texas SB 8 and is essentially a complete ban on abortion. Exceptions are permitted, but only if an abortion is medically necessary, and in those cases, a physician must document the reasons for the abortion. Failure to abide by these requirements would be a felony. Across the country we have seen how dangerous these restrictions are. Women have been denied emergency care in multiple states.

Because the restrictions proposed in House Bill 1233 grossly interfere with a woman's statutory right to make decisions about her pregnancy, the Women's Law Center strongly urges an unfavorable report.
