

HB0961 is a very **bad and dangerous bill for Maryland legal citizens**. This bad bill is a money **drain on those of us who pay taxes**. **WANT our TAXES to go SKY HIGH**, then pass this bad bill. This bill is A NEW WAY to GIVE FREEBIES FREE EVERYTHING to ILLEGALS, not the people of Maryland who are **already suffering due to illegal immigration, crime, inflation, lack of resources, a bad medical system, unaffordable necessities, taxation without representation, fees, overpriced utilities and more**.

This is **CLOWARD PIVEN** on steroids!!! IF IT AIN'T BROKEN, BREAK IT.

Your taxpayers are fleeing and will flee in mass because we can't afford to live here and it will soon be too dangerous to live here. KEEP it up democrats! Keep it up.

SAY NO to this travesty, Maryland can't afford it!

Suzanne Price  
AACo, MD

## **CLOWARD PIVEN:**

1. Overload a system
2. Create mass panic and hysteria as the system is overloaded
3. Oversee the destruction of the system
4. Replace the former system with a new system **(WE ARE HERE)**

The **Cloward-Piven Strategy** of solving political problems can be compared to a forest fire. Although these fires result in widespread destruction, eventually a forest is regrown with young trees that are stronger than the old ones had been. Another comparison that may help illustrate the benefits of the Cloward-Piven Strategy is a "**scorched earth**" campaign. In this war strategy, leaders destroy everything they own in a given location, not just military installments or resources. The general idea is that without economic support, the enemy military will not be able to take advantage of their resources. Thus, the opposing army will survive because their enemies lack the ability to accumulate resources.
