

HB0184 Delegate Acevero Public Health - Healthy Maryland Program

SOCIALISM ON STEROIDS that will BANKRUPT MARYLAND, SAY NO PLEASE.

Cloward Piven:

Your taxpayers are fleeing and will flee in mass because we can't afford to live here and it will soon be too dangerous to live here. KEEP it up "progressives"! Keep it up.

SAY NO to this travesty, Maryland can't afford it!

Suzanne Price
AACo, MD

CLOWARD PIVEN:

1. Overload a system
2. Create mass panic and hysteria as the system is overloaded
3. Oversee the destruction of the system
4. Replace the former system with a new system **(WE ARE HERE)**

The **Cloward-Piven Strategy** of solving political problems can be compared to a forest fire. Although these fires result in widespread destruction, eventually a forest is regrown with young trees that are stronger than the old ones had been. Another comparison that may help illustrate the benefits of the Cloward-Piven Strategy is a "scorched earth" campaign. In this war strategy, leaders destroy everything they own in a given location, not just military installments or resources. The general idea is that without economic support, the enemy military will not be able to take advantage of their resources. Thus, the opposing army will survive because their enemies lack the ability to accumulate resources.
