RE: House Bill 353– Maryland Department of Health - 2-1-1 Maryland - Oversight – Letter of Support with Amendment

Dear Chair Peña-Melnyk and Committee Members:

The Maryland Department of Health (MDH) respectfully submits this letter of support with amendments for House Bill (HB) 353 - Maryland Department of Health - 2-1-1 Maryland - Oversight.

MDH provides oversight to 2-1-1 Maryland as outlined in their Articles of Incorporation and Maryland Statute. HB 353 further clarifies MDH's role. Under current statute, MDH is charged with evaluating the performance of each 2-1-1 Maryland call center. This legislation places this function back in the hands of 2-1-1 Maryland. MDH has contractual agreements with 2-1-1 Maryland to perform a variety of services and 2-1-1 Maryland in turn has contractual agreements with call centers to perform these services. 2-1-1 Maryland directly contracts with the call centers and is in the best position to evaluate their performance and ensure the work they are performing is aligned with the contractual agreements.

MDH agrees with the intent of this bill and respectfully recommends amendments to clarify 2-1-1 Maryland's role. This legislation adds the phrase "*behavioral health care coordination*". Care coordination is a technical term defined by the Agency for Healthcare Research and Quality (AHRQ) as "deliberately organizing consumer care activities and sharing information among all of the participants concerned with a consumer's care to achieve safer and more effective care." Due to the technical nature of this phrase and to further define 2-1-1 Maryland's role, MDH recommends striking the term behavioral health care coordination and inserting behavioral health into the definition of health and human services referral system.

MDH has included proposed amendment language for the Committee's consideration.

If you would like to discuss this further, please do not hesitate to contact Sarah Case-Herron, Director of Governmental Affairs at sarah.case-herron@maryland.gov.
