

HJ0005 Commitment to Free Speech, Academic Freedom, and Open Public
Discourse Favorable

Dear Committee Members:

If you listen to one of MGA's own hearing sessions on matters in Gaza, you will hear Jewish people and Palestinians alike repeatedly say that that people should be able to express their views on international matters, specifically Zionism, without being called anti-semitic.

Freedom of speech is one of the reasons people have wanted to come live here. If we lose that, we lose America and what she stands for.

Thank you

Sincerely,

Peggy Williams
