JUVENILE SERVICES

Aruna Miller  
Lt. Governor

Wes Moore  
Governor

217 East Redwood Street  
Baltimore, MD 21202

Vincent Schiraldi  
Secretary

Date: February 9, 2024  
Bill Number/Title: SB0744 -Juvenile Law - Reform  
Committee: Judicial Proceedings Committee  
DJS Position: Support with Amendments

---

**The Department of Juvenile Services (DJS) supports the provisions in HB 814 that addresses firearm offenses and creates the Commission on Juvenile Justice Reform and Emerging Best Practices.**

DJS recognizes that with large scale legislative changes, there needs to be a significant investment in implementation strategies, and consistent evaluation of outcomes to ensure reforms are achieving intended outcomes for young people and communities. DJS also recognizes that like many other places in our country, Maryland is challenged with increased access to firearms and increased incidents where youth are perpetrators and victims of violence. To this end, DJS supports provisions in HB 814 that ensure the highest level of review and access to the full range of DJS services and interventions when a youth is alleged to engage in acts that involve a firearm. DJS also supports provisions to create an independent commission focused on ensuring Maryland's juvenile justice system operates in alignment with scientific research, evidence based practices, and implements strategies to mitigate the harms of racial and ethnic disparities. It is a commission, like the Juvenile Justice Reform Council and proposed in HB 814, that should review changes and modifications to juvenile law to ensure proposals are rooted in data and achieve positive outcomes for youth, families and our communities.

During the 2022 legislative session, the General Assembly adopted recommendations to improve and modernize Maryland's overall approach to juvenile diversion, detention, commitment, supervision, and treatment by enacting provisions that:

- Allow for developmentally appropriate interventions for youth under 13 accused of non-violent offenses;
- Created a results-oriented probation model to help young people meet rehabilitative goals;
- Supported public safety while minimizing use of detention and out-of-home commitments for low-risk youth;
- Expanded opportunities for diversion services for low-risk youth; and,
- Embedded principles of racial equity into all levels of Maryland's juvenile justice system.

DJS supports statutory changes to put guardrails in place to minimize exposure to the juvenile justice system for non violent crimes in favor of community based services. DJS supports children being able to access developmentally appropriate interventions for youth under age 13, effective law enforcement diversion programs, and values DJS's discretion to use graduated responses and other evidence based approaches to supporting youth on community supervision/probation.

For these reasons, DJS requests a favorable report on HB 814 with amendments to address firearm offenses and the creation of the Commission on Juvenile Justice Reform and Emerging Best Practices.
