

2/15/2024

To whom it may concern:

We are writing in support of our neighbors in this bill's passing. Living in a family neighborhood, and having young children ourselves, we understand the importance of privacy and safety where we live. We believe that our neighbors have taken a kind, appropriate, and justified approach in resolving their personal security dispute without external involvement. That being said, in the case of any escalation, and for further peace of mind, we feel that the execution of a peace order is warranted in certain occasions and can be useful for a family's wellbeing. We appreciate our neighbors, the Leatherman's, and Senator Corderman's approach in support of SB632. We look forward to this legislation coming to fruition.

Sincerely,

Brian and Allison Weyant
