

I RoShaundra Dyson , is in favor for this Jamarislaw. This young man had a bright future . It's so sad to see that this situation has to come this far . i have been around Mr. John Duckett, and it's a shame how he masks with a happy smile . This man smiles but also he is stressed and hurting that his child has been taken away from this world . passing this law would make a difference in the state of Maryland . I also have lost a family nearly the same way . I see how life is drained from you when you lose a child . I just feel if the law was increased , it would make everyone more cautious and knowing that taking someone's life does just come with a pat on the wrist . Please grant this law for the sake of his family . losing a love one is enough , let this family know that yes jamarislaw will make a difference for years to come . when your child is ripped away from you and the person who does it , its a dusting of time is not right . At this time please think how you would feel if it was you and your child or grandchild .

Sincerely ,
RoShaundra Dyson
